

According to www.CellBills.com a site which is one of the top money savings websites on the web that focuses on helping its Customers save money on their cell phone bills, the easiest way to **reduce cell phone cost** is by changing your current cell phone plan. According to CellBills.com, the average Consumer is over spending on their cell phone bill by about \$321.00 a year. This means most Americans are paying on average \$26.75 more a month on their cell phone bill per month than they should be.

Jeff Moore, President at CellBills.com says “the easiest way to save on cell phone cost is by adjusting your plan”. Your cell phone Carrier offers a wide variety of plans. Make sure you are on the cell phone plan that suites your needs best. The other reason that changing your cell phone plan is the best says CellBills.com is because you can change your plan and still remain on the same Carrier. A lot of Carriers will even allow you to change your plan without extending your service contract. Be careful, some may try to extend your contract so make sure you ask the right questions.

CellBills.com was started by a group of cell phone industry executives to help both consumers and businesses save money on their cell phone cost. The site allows you to upload your cell phone bill for free. The CellBills.com proprietary **cell phone bill auditing software** then audits your cell phone bill in seconds to tell you just how much you can save. You can get a free savings evaluation report, and for a low price you can also get a full cell phone savings report which will show you first hand everything you need to do to reduce your cell phone cost.

www.CellBills.com was just featured in Family Circle Magazine as the fastest way to reduce your **cell phone cost** !

“People always want the **fastest way to save money** on their cell phone bill, and changing your current cell phone plan to a better plan that fits your needs more appropriately will definitely find you savings” said Moore. This is what CellBills.com is all about, helping consumers and businesses save money on their cell phone bill easily” said Moore.

So if you are looking for the easiest way to save money on your cell phone bills, then start thinking about changing your current cell phone plan to a better plan with the same Carrier. You may just find out that you too can save \$321.00 a year or maybe even more.
