

Did you know that you may be able to get an employee discount on your monthly cell phone service fees as a result of the company you work for?

Many companies have deals in place with their wireless Carriers that allow them to get cell phone discounts for their employees as a result of being employed by the company. If you are employed by a Fortune 1000 company then there is most likely an employee discount in place with the wireless Carrier(s) your company uses.

If the company you work for has more than 100 cell phone lines, then there is a good chance that you might be able to get an additional discount off monthly service rates. Most of the time you will only need a valid company e-mail address or an employer id to get these discounts. To find out if you qualify for a Employee discount based on the Carrier your employer uses, simply ask your company if they have employee discount in place that you can take advantage of. Once you get the discount, don't forget to renew the discount annually to insure you continue to get the discount.

Don't forget CellBills.com can also help you save money on your monthly cell phone bills as well. Stop by our site for a Free Savings Evaluation today!
