

So you want to know how to reduce **blackberry cost**? The first step is to really start to understand your Blackberry cost and to start reviewing your Blackberry bill on a regular basis. Knowing that your Blackberry cost is a problem, and that your

### **Blackberry bills**

are too high is a great first step in the process when it comes to reducing Blackberry billing cost.

We have the five easiest ways to reduce Blackberry cost.

Five Ways To Reduce Cellular Phone Cost:

1. Review your Blackberry bills monthly. Make sure you are not overspending or being charged incorrectly on your Blackberry cost. The best way to insure your Blackberry cost do not get out of control is to keep an eye on them. Review your Blackberry phone bill every month. A great option for doing this is [www.CellBills.com](http://www.CellBills.com) .

2. Move quickly to make adjustments to your Blackberry bill if something does not look right. There is a very good chance that your Blackberry bill is incorrect as we speak. Look for these typical Blackberry billing issues first; incorrect Blackberry charges, a high Blackberry overage cost, incorrect Blackberry data plan selection, or in any other areas where it is obvious that you are not on the right Blackberry rate plan.

3. Watch the additional Blackberry service charges. Those extra charges may be killing your Blackberry bill. Pay attention to picture services, sms text messaging, and photo services, and downloading of games and apps, etc.

Make sure you stay away from the costly 411 Directory assistance charges. Find a good alternative for 411 services when it comes to your Blackberry. The Carriers are charging \$1.90 a call now. That is crazy when you can get it much cheaper and even free in some cases.

4. Use A Cheaper Data Plan Instead of **Unlimited Blackberry Data**. Do you know a lot of the bills we see at [www.CellBills.com](http://www.CellBills.com) are easily able to save money simply by changing data plans. You may not need the unlimited data plan. There is big savings to be had if you can change to a data plan that does not include unlimited data. Take a moment to really look at your Blackberry data usage. If you do not need unlimited data then why pay for it?

5. Find Help Reducing Your Cell Phone Cost. If you do not have the time, patience, or the knowledge to effectively review your Blackberry bill then it is time to find help. There are wide variety of services that will help you find Blackberry saving. The services can be inexpensive. The can also save you a boat load of money without having to switch your current Carrier.

If your company is looking to save money on Blackberry cost then we recommend [www.Onesourcemobile.com](http://www.Onesourcemobile.com)

. One Source Mobile offers the best corporate phone auditing services hands down. They have tons of corporate experience, and they are very reasonable on cost for their services.

We all want to reduce Blackberry cost. We all want to save money on our Blackberry cost. If you want to do it effectively follow the five steps above, and I bet you will find lots of savings. Good luck!
